

PLEASE NOTE:

The 12th Project modules are designed to open up chakras that have been dormant your entire life (or lives). They can and will bring back ancient abilities and enlightenment through the quantum plane. Essentially, each person that uses the modules is opening a hole back to their repository of knowledge. Each module is different in that it opens a different chakra and for each person using the modules the experiences will be different. As an example, no two people using Zeus will experience the same awareness or abilities that will come forth.

Because they all function so similarly, the instructions for them are the same. In addition, because the connectedness of a given chakra to information that is specific to the user will always provide unique information, there is no possible means of defining precisely what a module is for, the result, or the differences between them.

This foregoing is stated, in part, simply so that those of you using multiple modules will understand why the instructions are exactly the same from module to module.

Welcome to the power of 12<sup>th</sup> Project Modules. Before we begin, please read these instructions completely, you can believe us when we say you want to have as few questions as possible before you start using this powerful program, and there are only a few pages. Let's first visually familiarize you with the functions of the program.

Now let's familiarize you with what happens when using the 12<sup>th</sup> Project Modules. You are about to consciously direct and impress light frequencies in and through water via the software. The frequencies create fundamental geometric liquid crystalline forms (much like snowflakes, or hexagonal geometry) that are able to communicate with you at the level of

your own water-based blueprint, essentially uncovering an array of more natural states of being.

The 12<sup>th</sup> Project Modules will communicate on the quantum plane of existence with your virtual chakra and obtain your specific biological blueprints and superimpose them over your being. What exactly does this mean! This has a different meaning and connection for everyone that uses the software. The 12<sup>th</sup> Project Modules will communication with only one virtual chakra and bring back the information pertaining to that one chakra. Some will be giving vital information and knowledge, others will be enlightened some will undoubtedly have their mental and physic abilities heightened.

Each 12<sup>th</sup> Project Modules should be used for at least 12 days to have a maximum impact on that specific chakra.

The 12<sup>th</sup> Project Modules were built from the ground up with simplicity in mind for users that are either new to our software or for veterans who have been with us for a couple of years.

**HOW TO USE:** Where your attention is, is where you direct consciousness (or frequency). Whether you're a new age guru, a politician or an Anglican priest this is a most essential fact. Therefore, when you're about to select User Preparation, Water Preparation, or Nucleate Chakra, put your attention on the water (in the glass, tub or shower).

**USER PREPARATION** (Runs for 22 Seconds): This one is used to override your subconscious mind and its own programming, which will GREATLY enhance the effectiveness of the 12<sup>th</sup> Project Modules. Prep 3 or 4 ounces of water as normal, put your attention on the water and select User Prep. Drink the water, and note that this will also increase the effectiveness of both Bathing and Showering.

**WATER PREPARATION** (Runs for 22 Seconds): Because water carries the memory of everywhere it's traveled it's important to remove the memory imprints from the water before moving on. Those programs, or memories, are what determine the shape of its crystal. Therefore, changing the crystal itself is the trick to the programming, but the first thing that must be done is to "deprogram" it, or erase it. We must turn it into a blank slate so that the integrity of our programming remains unaffected by already resident programming. Once you have filled your glass, or are running a shower or bath put your attention on the water and press the Water Preparation button.

**NUCLEATING CHAKRA** (Runs for 81 Seconds): The heart of the program is Nucleate Chakra. You can use this on a glass of water, shower or a bath. This is where the connection to the quantum realm happens; you will be instantly connected with your vault of information via this part of the program. For some it will happen be very suddenly for others it will take a couple of weeks. Although this part of the 12<sup>th</sup> Project Modules only run for 81 seconds it will condition the water even if you're still bathing or running a shower.

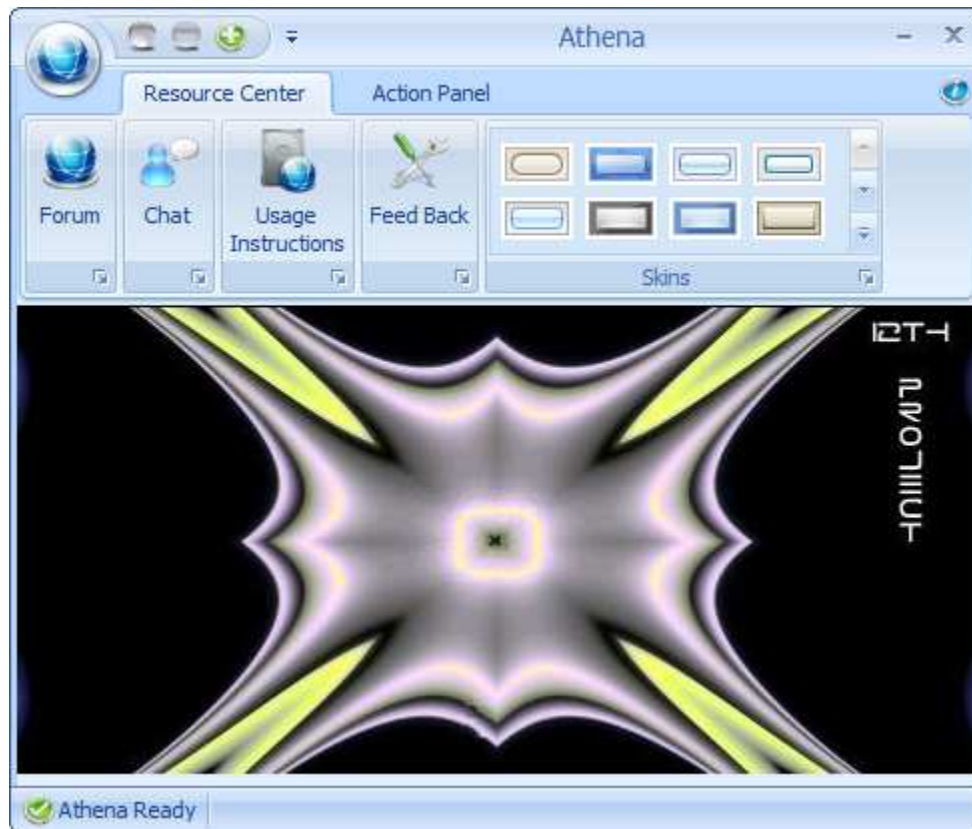

### **WATER FOR BATHING/SHOWERING**

Proximity doesn't matter, so you don't need to take your computer into the bathroom shower with you!

**Bathing:** Begin filling your tub and go back to your computer. Put your attention on the bath water and make your selection.

**Showering:** For the shower just start it, put your attention on it, and the selection.

**Water for Ingestion:** Obtain the purest water you can for treatment and put your attention on it.

**Considerations:** The 12<sup>th</sup> Project Modules is the most powerful software I have ever created; this means that you should take it slow out of the gate no matter how "seasoned" of a power user with our other lines of software. Opening up a virtual chakra can be compared with birth its that deep of a connection with the person using the 12<sup>th</sup> Project Modules.

The 12<sup>th</sup> Project Modules should only be used when you are relaxed and not stressed.

With that behind us let the fun of discovery begin.
